

Solid Body Butter: Massage/Lotion Bar

Who we are!

We are Coscoon and we are enthusiastic about do-it-yourself stuff. This is one of our DIY kits for natural cosmetics created with passion and love. Enjoy making your own natural cosmetics!

Ingredients Massage Bars:

Cocoa butter, shea butter, beeswax, coffee beans

Ingredients Lotion Bar:

Cocoa butter, shea butter, beeswax, oil composition

Accessories included:

Spatula, beaker glass, gloves, how-to-guide, moulds

Additionally required:

Pot for water bath, spoon, clean cloth or kitchen paper

Features:

4 x 32g / 6x20g

Done in approx. 60 min

Sufficient for approx. 16 weeks / 24 weeks

Prepare your workspace by thoroughly cleaning all utensils and surfaces. Please follow the instructions during the process. Use up all provided components during a single manufacturing process. By maintaining a hygienic working method, you ensure an optimal product!

Step-by-Step Instructions (1/2)

1. Assemble the DIY moulds and, (for the massage bars) distribute the coffee beans evenly across the moulds. Commercially available silicone moulds are also suitable.
2. Melt the beeswax completely in a beaker in a water bath.
3. Crush the cocoa butter and add it with the shea butter and coconut oil to the beaker. Then heat the ingredients gently until they are completely melted.
4. When all ingredients are melted, take the beaker out of the water bath and let it cool down to hand warm temperature. Wipe the bottom of the beaker dry so as to prevent water from getting into the melted ingredients.
5. (For the LotionBars) Add oil composition and stir gently.
6. Now pour the liquid carefully evenly into the prepared moulds.
7. After finishing the products, quickly clean the used accessories with kitchen paper and remove any coarse residue. This allows the accessories to be easily cleaned in the dishwasher later.

Step-by-Step Instructions (2/2)

8. After they have cooled down, let the filled moulds harden in the refrigerator for at least 12 hours.
9. The solid body butter should continue to thoroughly dry for a few days in a cool place. This improves the firmness and melting behaviour of the product.
10. You should now fill them into a beautiful can or glass and close it firmly. Alternatively, you can wrap them individually and label them according to your preferences.

Attention:

Even natural cosmetics can cause allergic reactions. Please test on a small skin area before using. Coscoon products are pure natural cosmetics. They can vary in colour and smell. For external use only. Do not use if you are allergic to any of the ingredients. Not suitable for children under the age of 3. Keep out of children's reach!

Product Application

The solid body butter is intended for use all over the body. By the warmth of the skin the body butter melts and is ideal for the application on damp as well as dry skin. Simply use and enjoy! Only the varieties without essential oils are suitable for the face, as these can irritate the sensitive facial skin. The solid body butter is perfect for relaxing partner massages and is also an essential cosmetics item for your travels.

Shelf Life:

If used in a hygienic manner and stored in a cool and dry place, the massage/lotion bars will not expire before 6 months after manufacturing. Colour and consistency may vary. As long as your product smells well, it is safe to use.

Further important to us:

Our food-safe and fully recyclable raw material packaging is easy to clean and can be re-used as compact, securely sealable storage containers in the kitchen and on the go.

We manufacture our products in a climate neutral way. Which means that we identify the amount of CO₂ produced by our company and help reduce it by supporting climate protection projects.
